ACTION NEEDED NOW:

TELL YOUR SENATOR TO VOTE YES ON AB 1395 ON THE SENATE FLOOR

AB 1395 would codify a target for the state to achieve net zero greenhouse gas emissions as soon as possible, and by no later than 2045, and achieve and maintain net negative emissions thereafter, outlining a framework for reaching these goals that maximizes emissions reductions and ensures protection for communities and the environment. This includes a commitment to reducing greenhouse gas emissions 90% from 1990 levels by 2045. By doing this, the bill takes a critical step in addressing the climate disaster, ensuring that the state actively works towards minimizing its contribution to it, as it aims to achieve net zero and net negative greenhouse gas emissions.

2. If your Senator is one of the below, CALL THE OFFICE with the following script:

“I am a constituent and a person of faith who recognizes that we are in a severe climate crisis. I urge Senator (NAME) to vote YES on AB 1395 when it comes up for a Senate Floor vote. AB 1395 will save thousands of lives, create hundreds of thousands of clean energy jobs, and protect public health, especially for residents on the frontlines of climate change. We have the technology and the public will to make this happen. Senator (NAME) needs to vote YES on AB 1395. Thank you.”
